The Ardour Solar Energy IndexSM is a capitalization-weighted, float-adjusted index of the most prominent solar energy stocks in the world. To be included in the SOLRX index, stocks must pass multiple screens, including for capitalization, float, exchange listing, share price and turnover.

The Index Committee today announced a change in index methodology relating to "Special Dividends" as follows: Any 'explicitly labeled' Special Dividend or any dividend larger than 10% of the equity price is considered a special dividend and requires a price and share adjustment to the company that issued the special dividend. The adjustment will be a market neutral event and will have no effect on the divisor.
